

Fantasy Rules! Third Edition

Never in the memory of the world had such a war occurred...

So starts the third edition of **Fantasy Rules!** by Chipco Games. Five years in development and testing, FR!3 lets miniature wargamers play in almost any universe of their imagination.

There are over 60 army lists included, featuring both mythical historical and pure fantasy - from legendary Ancient Egypt, Greece, and Rome to Napoleonic, American Civil War, Buffalo Soldiers, and Native Americans.

From Gnomes, Elves, and Orcs to Hive Queens and Arch Angels or Demon Lords. From Arabian Nights to the Victorian fantasy of Jules Verne and Edgar Rice Burroughs.

...and battles are not limited to open ground; FR!3 includes rules for flying, swimming, burrowing, and adds a whole new dimension with rules for cities, walls, and ships.

FR!3 streamlines the second edition magic system, adds new units and abilities, and makes characters more flexible while keeping the core system - current FR!2 gamers will appreciate that any changes from the second edition are marked.

Fantasy Rules! Third Edition can be purchased via the Chipco website at: www.sabersedge.com/chipco in various media. All rules and army lists are included.

Fantasy Rules Third Edition will be released on November 17, 2003.
